

Improvement in User Interface and Online Payment option availability on NMMC website

1. Navi Mumbai Municipal Corporation (NMMC) website <https://www.nmmc.gov.in/> should have a visible Property Tax icon / module on the front page (presently one has to scroll down at the bottom of the front page).
2. NMMC wants to adopt the “3 click” approach on any website or payment system to make it more interactive.
3. At present, there are very limited payment options for online payment on the website with poor user interface. NMMC wants to add all the available options for online payment on the Online payment page of Property Tax and improvise the User interface by making it more user friendly to attract the audience.

Below are the few screenshots of the user-friendly payment interface which are used in day-to-day life for reference.
